

# IEEE IITC 2025

June 2-5, 2025 | Westin Josun Busan, **Busan**, Korea

## **Dr. Giulio Marti**

IMEC, Belgium

---

Giulio Marti is an R&D engineer at Imec within the process integration team, specializing in advanced interconnect technology. Before joining Imec in 2020, he served as a Process Integration Engineer at STMicroelectronics in France (Crolles), contributing to the PI/Device CMOS 28nm team after completing his Ph.D. in Material Engineering in 2016 through collaborative efforts with SiMAP (CNRS) and STMicroelectronics. With over a decade of experience, Giulio excels in BEOL process technology, electrical characterization, reliability analysis, and modeling
