

IEEE IITC 2025

June 2-5, 2025 | Westin Josun Busan, **Busan**, Korea

Prof. Yung-Jr Hung

National Sun Yat-sen University, Taiwan

Yung-Jr Hung joined the faculty of the Department of Photonics, National Sun Yat-sen University (NSYSU), Kaohsiung, Taiwan in 2013 and is now the Distinguished Professor at NSYSU. Dr. Hung also serves as the Chief Technology Officer at BE Epitaxy Semiconductor Technology Co. Ltd, as well as the Silicon Photonics technical consultant at tsmc. Dr. Hung has authored or co-authored over 200 technical journal and conference articles and held 10 patents. He was the recipient of IEEE Best Young Professional Member Award in 2019, the MOST Da-You Wu Memorial Award in 2020, the MOST Future Tech Award in 2023, the TPS Technology Award in 2023, and the MOE National Invention and Creation Award (Gold Medal) in 2025. His current research interests are in silicon photonics, semiconductor lasers, and fiber optic gyroscopes.
